NOTE: Details may not add to totals due to rounding; values less than 1,000 are disregarded in calculating percentages. Transfers In excludes 1-time transfers.

1 Sales and Use Tax shows a positive variance of \$2.3M which is 5.1% higher than FY15 Actuals and 0.8% higher than the adopted FY16 budget.

2 Unclaimed Property shows a negative variance of \$5.9M due to the timing of receipts and is fully expected to be corrected in November collections.

3 Tobacco Taxes shows a positive variance of \$4.2M which is 14.2% higher than FY15 Actuals and 20.5% higher than the adopted FY16 budget. This is the result of higher than normal receipts in July and a policy change by the Department of Revenue on how they collect payments for cigarette stamps.

4 Alcohol Beverage Tax shows a negative variance of \$2.7M due to the timing of receipts and is expected to be corrected in November collections.

5 Investment Income and Interest shows a large variance over FY15 Actuals due to the passage of SB52 which changed the time for investment earnings to be deposited into the general fund.
