Transferred \$250,000 of other fund expenditure authority to federal fund expenditure authority within Agricultural Services & Assistance. This is a one-time transfer involving operating expenses. This transfer allows the Fire Suppression handcrews to take advantage of more federal dollars for fuels mitigation work in the Black Hills. Since South Dakota has moved out of the drought cycle, more time is being spent on fuels mitigation versus fighting fires, which has created more opportunities to spend federal dollars. The other fund expenditure authority is available to be transferred due to lower than anticipated Agriculture Services revenue coming in from fees that were increased during the 2009 Legislative Session. It is anticipated that the Department will do a base transfer in FY2011 to rectify this issue in future years.

Accounting transaction detail can be queried from the central accounting system by LRC staff. A record of this transfer and its authorization is available for public inspection in the Bureau of Finance and Management.
