

## FY18 Actual Revenue

## Client Fees by Source

## All Clients Served by Office Location

### Telehealth Services

- LSS currently provides the following services by telehealth: CBISA group services (Cognitive Behavioral Intervention for Substance Abuse), MRT group services (Moral Reconciliation Therapy), employee assistance programs, and psychiatry.
- In FY18, LSS telehealth services were provided to clients in 93 communities throughout the state. Communities with the largest number of services included: Brookings, Chamberlain, Flandreau, Kimball, Mobridge, Pierre, Watertown, Sisseton, and Sioux Falls (psychiatric services).
- To increase access to services for clients in rural communities who lack access to technology (laptop, phone, or tablet etc) or internet, LSS has secured private funding to purchase devices and internet hot spots that are loaned to clients to participate in services. To date, LSS has purchased and distributed 68 tablet devices and 53 hot spot devices for client use.
