Extraordinary Cost Fund for Special Education Interim Study

Title of Requested Study (J): Extraordinary Cost Fund for Special Education

Scope of Requested Study: The specific issue to be addressed is the increasing need for special education and related services in the schools in our state and how to adequately fund special education in light of that increased need. One of the main concerns is that the state aid dollars currently being set aside for the extraordinary cost fund for special education are not adequate to meet the demands on that fund.
