

SOUTH DAKOTA LEGISLATIVE RESEARCH COUNCIL

FISCAL NOTE, 2015 LEGISLATIVE SESSION

FISCAL NOTE 2015-SB60A

SB 60 as amended by 60jb is an Act to provide newborn screening of inherited and genetic disorders.

The bill provides the Department of Health expanded rulemaking authority to require that each infant born in South Dakota be screened for inherited and genetic disorders as prescribed by the department.

There is no fiscal impact because SB 60 does not add any additional screens. It simply amends the Department of Health's rulemaking authority to include genetic and inherited diseases. There would be no fiscal impact until a disorder is added pursuant to the administrative rules process, at which time a fiscal note would be submitted as prescribed by SDCL 1-26-4.2
