19 (4) "Per student allocation," for the period January 1, 1997, to June 30, 1997, inclusive,
20 is \$1,675. For school fiscal year 1998, beginning on July 1, 1997, the per student

- 9 year, the quotient expressed as a percent;
- 10 (9) "General fund base percentage," is the general fund balance percentage as of June 30,
- 11 2000. However, the general fund base percentage can never increase and can never
- 12 be less than twenty percent;

- 21 general fund set aside for a noninsurable judgment;
- 22 (13) "Current average daily membership," the average number of resident and nonresident
- 23 kindergarten through twelfth grade pupils enrolled in all schools operated by the
- 24 school district during the most recent reporting period, minus the average number of

12 its average daily membership, that school district shall receive general support foundation
13 program funds to compensate the district for the difference between the current average daily
14 membership and the average daily membership for that reporting period. If a school district's
15 current average daily membership for any reporting period is less than or equal to its average
16 daily membership, the school district shall continue to receive state funding based on its average
17 daily membership.
