

67:62:15:01. Definitions. Terms used in this chapter mean:

- (1) "Active treatment," the implementation of a program of specialized and generic training, treatment, health services, and related services that lead to the acquisition of the behaviors necessary for the individual to function with as much self-determination and independence as possible and to prevent regression or loss of current optimal functional status;
- (2) "Dementia," disorders characterized by the development of multiple cognitive deficits, including memory impairment, that are due to the direct physiological effects of a general medical condition, to the persisting effects of a substance, or to multiple etiologies such as the combined effects of cerebrovascular disease and Alzheimer's disease;
- (3) "Nursing facility," as defined in subdivision 67:45:01:01(9);
- (4) "Preadmission screening and resident review" or "PASRR," a process made up of a Level I screening completed by the department and Level II review completed by the division to determine eligibility when an individual with a mental disorder as defined in subdivision 67:62:01:01(27), applies to reside in a Medicaid certified swing bed or nursing facility;
- (5) "Specialized mental health services," psychiatric services resulting in the continuous and aggressive implementation of an individualized plan of care that is developed by an interdisciplinary team which includes a physician, QMHP, and other professionals which prescribes specific therapies and activities for the treatment of individuals experiencing an acute episode of SMI requiring supervision by trained mental health professionals to obtain improvement in function that would permit a reduction in the level of intensity to below the level of specialized services at the earliest possible time;
- (6) "Swing bed," as defined in subdivision 67:45:01:01(12).
