

12:36:04:05. Seeds for which TZ test may be used. For each of the following grasses, the result of a tetrazolium test may be shown in lieu of the percentage of germination to indicate the potential viability of the seed:

- (1) Needlegrass, green, *Stipa viridula*;
- (2) Wheatgrass, western, *Agrophyron smithii*.

For all other seeds, the result of a tetrazolium test may be shown along with the percentage of germination.
