Internship Opportunity:

Software Development Intern
South Dakota Legislative Research Council, Pierre, South Dakota

The SD Legislative Research Council, the nonpartisan research and support staff of the South Dakota Legislature, is accepting applications for a Software Development Internship. This position is responsible for assisting with the development, maintenance, and support of the Legislature's information systems. The Intern will work with our support staff for the first month to learn our systems, the legislative process, and how our users interact with the system. The intern will then begin working with our development staff on our new LawMaker+ system. The system is web based and is being developed using C#, .Net Core 2.2, Vue, Vuetify, and Entity Framework Core. Applicants should be eager for the opportunity to work in a positive, team environment and be honest, trustworthy, discrete, and have the ability to explain technical issues to nontechnical staff and users.

Duties and Responsibilities:

- Assists with support and training of legislators and legislative staff under the guidance of our IT Support Specialist.
- Assists with the development, maintenance and documentation of the Legislature's information systems under the guidance of our Lead Software Engineer.

Education/experience: Applicants should be pursuing a degree in computer science or related field with strong computer programming course work. Experience with the technologies listed above is helpful but not required.

Salary Range: $15/hour to $19/hour.

Internship Dates: January 2020 – August 2020. Exact start and end dates are flexibles based on your college schedule. Ideally, the candidate will be available to start January 6th at the latest.

Application Process: This position is exempt from the Career Service Act. Applications will be accepted through October 25, 2019. Application information for this position will be kept confidential. Please send a letter of interest and resume via hard copy or e-mail to:
