FY18 Performance Indicators  
Bureau of Human Resources

Goal No. 1: Increase percentage of employees and covered spouses completing all three wellness qualifications by 3% or 320 members by March 31, 2018.

The wellness qualifications include taking an on-site health screening, participating in an online health assessment, and earning 100 wellness points. Studies show health screenings and health assessments help employees better understand their health risks and seek preventive care, which could result in cost savings to the health plan.

Goal No. 2: Increase individual-case utilization of the Employee Assistance Program (EAP) from 4.9% to 5.8% or 113 individual cases by FY19.

EAP provides a wide range of services, including personal counseling, financial planning and counseling, legal services, discount shopping, and education on dealing with aging parents and children, to state employees and immediate family members at no cost to the user.

The State pays a fixed cost per employee for EAP, and utilization is shown to reduce absenteeism and health-care costs. A recent employee survey showed that 40% of respondents were not aware of EAP services, and only 12% of the survey participants had used EAP.
FY18 Performance Indicators
Bureau of Human Resources

Goal No. 3: Increase usage of the following preventive care services available at no cost to the member by June 2019.

- Increase preventive care office visits for women over 40 by 5% (or about 318 women) to 52%.
- Increase preventive care office visits for men over 40 by 4% (or about 224 men) to 30.4%.
- Increase utilization of mammograms for women over 40 by 3% (or about 191 women) to 54%.

Goal No. 4: Ensure average time to fill positions for State agencies is less than the national average for FY18.

The current average for State agencies to fill a vacant position was 37.7 days in FY17, and the national average* was 39.8 days.

*The national average does not include weekend days, and the State average does.

Goal No. 5: Implement four on-demand, 24/7 e-learning modules in FY18 and increase by 50 percent annually each of the next four years.

BHR is implementing e-learning because it creates flexibility to participate at the time and location convenient to the employee. Because this is a new initiative, current usage data is not available. BHR will have the ability to track usage and completion for the courses to be added in FY18.
