If the political party does not print the delegates and alternates for the presidential race on the ballot you will use this format for that race:

**Printing note:** For county commissioners at large or delegates to state convention, use the correct number designations for the number of candidates to be elected. For state representative, use the correct "vote for" phrase for the number to be elected. The person in charge of the election may select where to have the ballot stamp watermark printed on the ballot if the location is within the vendor's printing limitations.
