

Tentative Implementation Outline for New Web Soil Survey and New Soil Rating Tables

Counties with GIS and very few adjustments

- 2020 – tentatively receive new soil rating tables and map units from Revenue in the spring
- 2021 – tentatively new soil rating tables implemented and used for the March 1, 2021 assessment

Counties that have made a lot of adjustments and have GIS

- 2020 – tentatively receive new soil rating tables and map units from Revenue in the spring
- 2021 – review new soil table ratings and analyze whether the old adjustments are still needed or can be removed
- 2022 – new soil table ratings implemented and used for the March 1, 2022 assessment

Counties without GIS

- 2020 – budget for and sign contract with a GIS vendor
- 2021 – continue working on implementing the GIS system
- 2022 – continue working on implementing the GIS system
- 2023 – new soil table ratings implemented and used for the March 1, 2023 assessment
